NSF: NSPM-33 Implementation Guidance Disclosure Requirements & Standardization

The State Department event mentioned the NSPM-33 Implementation Guidance Disclosure Requirements & Standardization, which has apparently been posted by the National Science Foundation (NSF) at <https://bit.ly/3x9eZhs>.

According to the NSF post, over the past several months, the National Science and Technology Council (NSTC) Research Security Subcommittee has worked to develop consistent disclosure requirements for use by senior personnel, as well as to develop proposed common disclosure

forms for the Biographical Sketch and Current and Pending (Other) Support sections of an application for Federal research and development (R&D) grants or cooperative agreements.

NSF has agreed to serve as a steward for these common forms as well as for posting and maintenance of the table entitled, NSPM-33 Implementation Guidance Pre- and Post-award Disclosures Relating to the Biographical Sketch and Current and Pending (Other) Support.

The objective of the Disclosure Requirements and Standardization section of NSPM-33 Implementation Guidance is to, "Provide clarity regarding disclosure requirements (e.g., who discloses what, relevant limitations and exclusions), disclosure process (e.g., updates, corrections, certification, and provision of supporting documentation), and expected degree of cross-agency uniformity".

The post includes Draft Common Disclosure Forms for the Biographical Sketch and Current and Pending (Other) Support. A link to the NSPM-33 Implementation Guidance Pre- and Post-award Disclosures Relating to the Biographical Sketch and Current and Pending Support appear to have gone into effect on September 1, 2022: <https://bit.ly/3qnrUbN>
